

Caution - Edges may be sharp

INSTRUCTIONS Large RCL

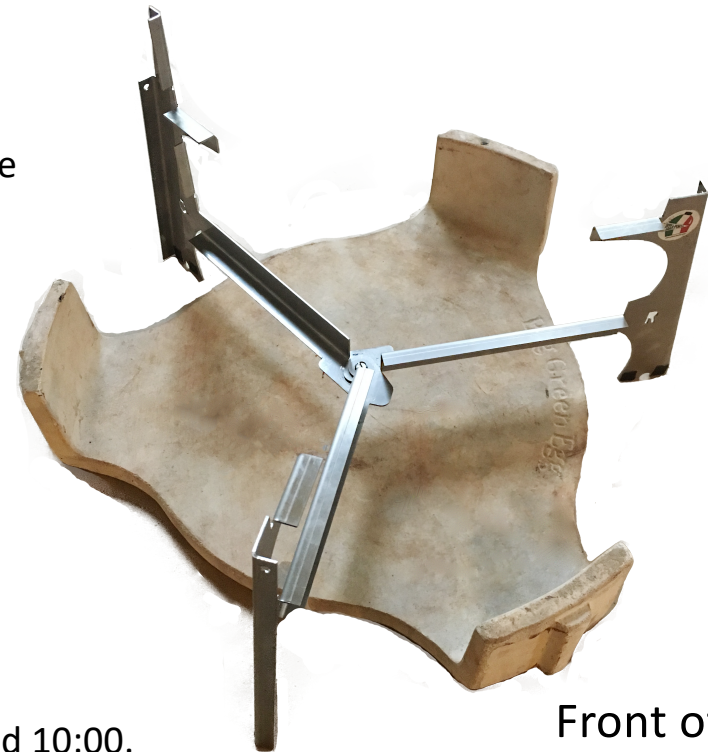

Assembly and usage in a Large BGE

- 1) Swing each rack leg out to its stop – Tighten bottom wingnut.
- 2) Place convEGGtor[®] legs up (not down in slots) with one leg toward the front
- 3) Set Double rack on BGE fire ring with “C” arm in back
- 4) Do not use BGE metal cooking grate
- 5) Place 14” bottom pizza stone on rack
- 6) Place top stone on rack
- 7) An aluminum deflector can be placed under the bottom stone

To lift the rig, lift the bottom stone until it lifts the whole unit.

Assembly and usage KJ Classic

- 1) Swing each arm out to its stop – Tighten bottom wingnut.
- 2) Place deflectors on KJ star rack. Overlap 1” in the middle
- 3) Rotate Divide and Conquer so risers are at 2:00, 4:00, 8:00 and 10:00.
- 4) Place RCL rack feet cutouts on Divide and Conquer ring with “C” arm in back
- 4) Place 14” bottom pizza stone on rack
- 5) Place top stone on rack

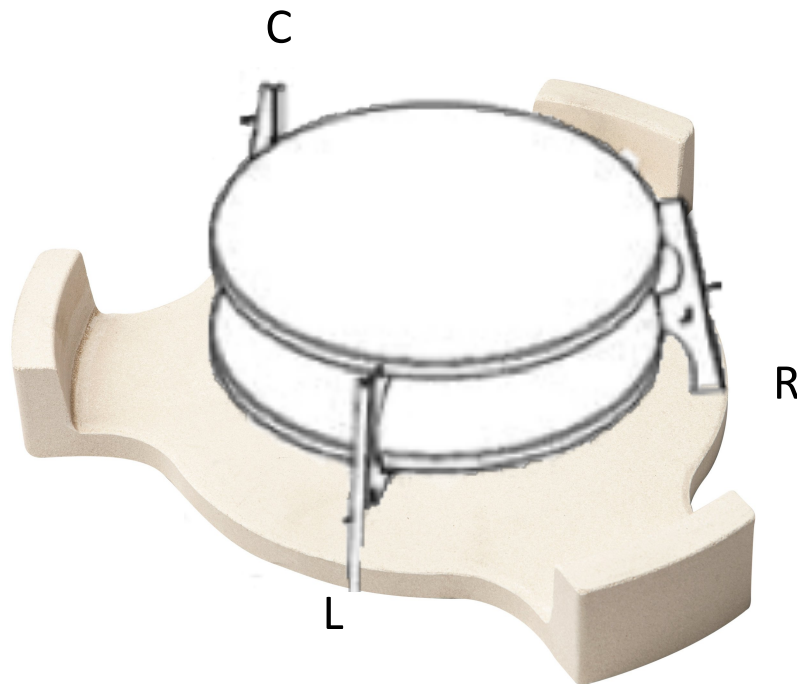

Front of BGE

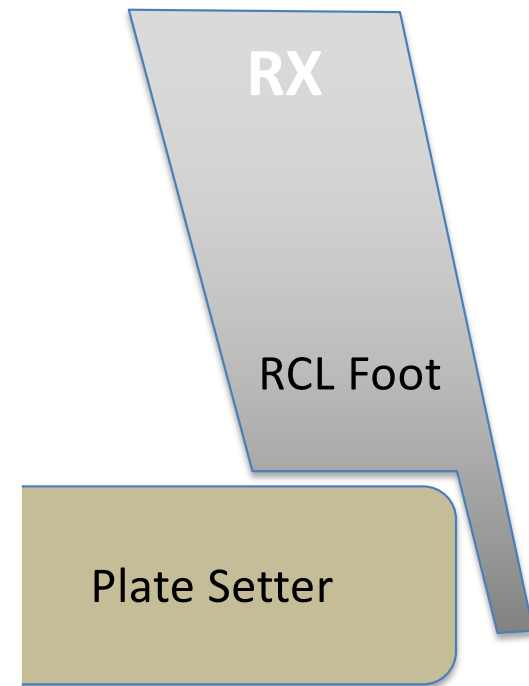

Caution - Edges may be sharp

Assembly and usage XL - BGE

- 1) Swing each arm out to its stop – Tighten bottom wingnut.
- 2) Place BGE plate setter legs up – with one leg toward the front
- 3) Stand the double rack on the plate setter with “C” arm in back
- 4) The L and R leg feet should hang over the front edges of the plate setter so the rack will not slide back. The C leg stands on the platesetter.
- 5) Place 14” bottom pizza stone on rack
- 6) Place top stone on rack
- 7) An aluminum deflector can be placed under the bottom stone

INSTRUCTIONS
XL RCL

To lift the rig, lift the bottom stone until it lifts the whole unit.
